

# Safely Serving You and Your Family

In light of the COVID-19 pandemic, we have implemented the below measures to ensure the safety of our patients, staff and their families. We ask that all our patients review these in advance of your appointment to help you prepare!

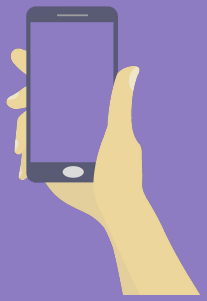

# Curbside Check -in

## How it works

*Text us when you arrive in our parking lot or outside the office!*

(If you do not have texting capabilities, you can call the office instead)

1. Please share in Text
  - ....Patient's name
  - ....Patient's date of birth
  - ....Appointment time

**Need our number? Text**

**Astoria 718-278-1700**

**Whitestone 718-746-1230**

**Ronkonkoma 631-451-7700**

**Centereach 631-585-6600**

**North Babylon 631-893-7000**

**Riverhead 631-727-8585 AKA sunny smiles 4 kids**

Wait safely in your car or  
outside the office.

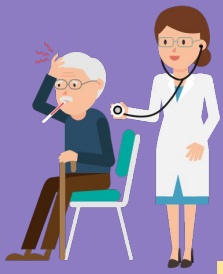

1. Once we are ready to take you for your appointment, we will call or text you to come inside.
2. We are asking all patients to wear a mask upon arrival if you do not have one, we will hand you a disposable mask when you enter the office.

## ONE PARENT OR GUARDIAN

Parents are asked to check them in and wait in the waiting room (socially distanced) or in their car. Only one parent/guardian is allowed to accompany the patient.

Everyone entering the office over the age of 6 should wear a mask.

# Pre-Appointment Screening

Includes completion of questionnaire and temperature check taken upon entering.

# Personal Protective Equipment (PPE) & other office safety features

Expanded use of personal protective equipment for staff, patients and anyone entering the office plus new safety technology devices.

- Disposable masks will be provided to anyone accompanying a patient into the office, if they do not have a mask on already.
- Staff will be following all guidelines for usage of PPE, including:
  - Masks (at all times, not just during treatment)
  - Gloves
  - Face Shields
  - Eyewear

Office is equipped with **NEW HOSPITAL GRADE AIR PURIFIERS** to kill virus Office is equipped with **CASPR TECHNOLOGY** used in hospitals to remove pathogens (virus) tested to be **99.9 percent effective.**

We are excited to see everyone back in the office so we can keep providing the community with great dental health.

Oral Health is human health.
